Weekly Schedules

The schedules for the next two weeks are attached. Please review them and let me know if you can fill in anywhere or if you will be leaving on vacation.

Simulators to Reopen

Our simulators will be back up and running starting on Monday, July 2nd. If you are a regular sims operator, your schedule will start up again on that day, as indicated on the weekly schedules. If you are not currently a sims operator, but are interested in becoming one, we do need additional volunteers in the afternoons. Please reach out if this interests you.

Don't Forget!

Tomorrow, June 30th, I will be holding a volunteer meeting at 9:00 AM in the cafe. I will provide donuts and coffee and will walk you through some of the changes that have occurred and are still to come. Please come with questions!

Greeters Needed!

Volunteers Needed to Serve as Greeters in Hangar 79

If you like talking to people and telling our stories, but don't feel like leading a tour is the right fit for you, then you may be interested in becoming a greeter! We need volunteers to serve as greeters in Hangar 79, especially on Saturdays and Sundays. Greeters welcome visitors to the hangar, point out some of the highlights worth seeing, and check wristbands to make sure everyone has been to the front desk. If this is something that interests you, please let me know!

A Note from our Executive Director, Elissa Lines

After three years of work, I am pleased to share that our American Battlefield study results have been approved by the National Park Service. Conducted by Booz Allen Hamilton, we have researched and documented battlefield activity here on Ford Island. For the NPS, this battlefield study was the first ever to incorporate elements of an aerial conflict. Some of the findings of this study will be included in our new "Defenders and Attackers of December 7th" exhibit opening in Hangar 37. My thanks to everyone for their help. Please let me know if you would like a copy of our Battlefield brochure!

Wishing you a wonderful July 4th holiday!
